

FOOD IS COOKED IN THE STREETS

General Greely Reports Worst
Feature of Situation at
San Francisco.

Washington, May 10.—The war department received the following telegram over night from General Greely, dated Presidio, San Francisco, May 9: "While conditions improve slightly, the miserable situation may be indicated by the statement that all the food for 300,000 people in San Francisco is yet necessarily cooked on the public streets. The courage of every one continues wonderfully. Neither drunkenness nor disorder anywhere, except from adjacent towns occasionally. Mayor Schmitz will adhere to closed saloons, which has been constantly urged by me. The Red Cross finance committee has agreed, Dr. Devine and myself concurring, that free food will be issued after Saturday next only on alternate days except in camps under strict military control. Red Cross agents to be present on alternate days of non-issue to provide for exceptional cases of need that may arise. Average issue at San Francisco, Oakland and elsewhere has averaged a quarter of a million rations a day. Every possible method by questioning, exclusion and otherwise being made to reduce the food issue. Of course existing destitution and much suffering occurs on the part of many people who resort to charity only in extreme cases. Altogether am encouraged."

(Signed) "GREELY,
"Major General, Commanding."

Fortunate Missourians.

"When I was a druggist, at Livonia, Mo., writes T. J. Dwyer, now of Grayville, Mo., 'three of my customers were permanently cured of consumption by Dr. King's New Discovery, and are well and strong today. One was trying to sell his property and move to Arizona, but after using New Discovery a short time he found it unnecessary to do so. I regard Dr. King's New Discovery as the most wonderful medicine in existence.' Sures Cough and Cold cure and Throat and Lung healer. Guaranteed by Z. C. M. I. Drug Dept. 30c and \$1. Trial bottle free."

PORCH SHADES AT Z. C. M. I.

New line just in. Will protect you from the sun but allow the breezes to pass through. \$2.50 to \$6.50.

STRIKE RIOTS IN ITALY.

Several Officers and Soldiers Wounded at Bologna.

Rome, May 10.—Disturbances of a grave nature have occurred at Bologna in connection with the general strike. Several officers and soldiers were wounded and many buildings, including some of the hospitals, were struck.
At Milan the strike has not resulted in any disturbances, and is generally condemned as it greatly affects the attendance at the international Simpson exposition. In this city a number of strikers today attacked several shops and broke a number of windows.

FOUR WOMEN INJURED IN RAILROAD WRECK

Portsmouth, O., May 10.—The Chesapeake & Ohio New York limited from Cincinnati was wrecked near Buena Vista station at midnight. The engine was derailed, but of the sixteen passengers on that car only four women were injured. Mrs. D. J. McKee of Cincinnati was seriously hurt, but will recover.
The other three women are unknown. The porter, Thomas W. Crayton, and brakeman Alfred Hinton were badly hurt.
A broken rail caused the wreck.

WILL NOT CONTEST THE APPOINTMENT

Columbus, O., May 10.—Sensational reports that Governor Scott would resign Portsmouth, a member of the Ohio board of penitentiary managers, is to contest the appointment at midnight. Mr. Scott is expected to succeed him and thus bring up the question of the alleged disability of Governor Scott. Mr. Scott's consequent inability to make appointments, were denied today by Mr. Gilliam.

Are You Fit

To be Trusted with a Good
Set of BRAINS?

GRAPE-NUTS

Keep them in Order.

A Brain Food and Repairer.

Every minister, lawyer, journalist, physician, author or business man is forced under pressure of modern conditions to the active and sometimes over-active use of the brain.

Analysis of the excreta thrown out by the pores shows that brain work breaks down the phosphates of potash, separating it from its heavier companion, albumen, and plain common sense teaches that this elemental principle must be introduced into the body anew each day, if we would replace the loss and rebuild the brain tissue.

We know that the phosphate of potash, as presented in certain field grains has an affinity for albumen and that is the only way gray matter in the brain can be built. It will not answer to take the crude phosphate of potash of the drug shop for nature rejects it. The elemental mineral must be presented through food directly from Nature's laboratory.

These facts have been made use of in the manufacture of Grape-Nuts and any brain worker can prove the value of the proper selection of food by making free use of Grape-Nuts for ten days or two weeks. Sold by grocers everywhere (and in immense quantities). Manufactured by the Postum Co., Battle Creek, Mich.

MAY CHANGES RATE BILL

Imprisonment Penalty of the
Act of 1887 Restored by
the Senate.

STRETCHING TALK LIMIT

NAVAL BILL DISCUSSED IN THE
HOUSE.

Washington, May 10.—The senate today completed the consideration of the second section of the railroad rate bill, and just before adjournment listened to the reading of sections three and four without considering any amendments offered to them. The purpose of this reading was to bring the consideration of the bill up to the point of taking up the Allison compromise amendments, which will be done tomorrow.

Many Changes Made.
A number of very important changes were made in the second section, including a provision restoring the imprisonment penalty of the act of 1887 and an amendment suggested by Senator McCumber imposing a penalty of fine and imprisonment against shippers who secure rebates from transportation companies. The latter amendment was incorporated for the avowed purpose of hitting the trusts. Another amendment adopted was offered by Senator Warren. It gives the government business preference over the private business in the case of changes were also made at the instance of the interstate commerce commission. Many of these were verbal, and all were intended to improve the administration features of the law.

Too Much Talking.

There was continuous debate throughout the day, and there was no little complaint that senators manifested a disposition to increase the time allowed them under the fifteen-minute rule by speaking on amendments to amendments and also by speaking in the time of other senators. Senator Tillman stated privately, when the senate adjourned, that if these practices continue he would make an effort tomorrow to have the speeches limited to five minutes' duration.

The senate then adjourned, to meet at 11 o'clock tomorrow morning.

NAVAL BILL CONSIDERED.

Debate Animated and at Times a Bit Acrimonious.

Washington, May 10.—Shells and projectiles for the navy department will, after June 30, 1906, be purchased by the bureau of ordnance in the open market, instead of, as is now the practice, in secret markets, from firms engaged in the manufacture of these articles. This change in existing conditions was brought about through the efforts of the chairman of the appropriations committee, Mr. Tamm of Minnesota, who offered an amendment to the naval appropriation bill, which the house had under consideration today, directing that the secretary of the navy should advertise for proposals for shells and projectiles so that all firms engaged in the business of their manufacture may have an opportunity to compete.

Enlistment Question.

Much time was spent today in considering the question of enlistments in the navy and the feature of recruiting officers to properly enforce the law as to minors. An amendment offered by Mr. Kellier of Massachusetts was adopted prohibiting naval recruiting officers from enlisting seamen, ordinary seamen or apprentices unless their application is accompanied by a certificate of the birth and written evidence other than the applicant's own statement that he is of the age required by naval regulations.

The debate on this amendment at times grew decidedly animated and a bit acrimonious.
After defeating amendments designed to enlarge the Washington, D. C., navy yard and the yards in Pensacola, Fla., at 5:15 p. m. adjournment until noon tomorrow, having completed but a few pages of the naval appropriation bill.

INSURANCE IS UNDISTURBED

Board of Fire Underwriters Has Not
Taken Action Relative
to Utah.

No action has been taken by the board of fire underwriters of the Pacific to increase insurance rates within its jurisdiction, so far as the management of the office in Salt Lake has learned. The local action the board will take remains to be seen. Whether the board will follow the example set by the local fire underwriters of Chicago a few days ago cannot be said at this time, and no information as to the intentions of the board could be obtained in Salt Lake yesterday.

Utah is outside the jurisdiction of the "Western Union," therefore the increase of rates in fire insurance rates in Chicago on certain classes of risks has no effect on Utah.
The headquarters of the board which has jurisdiction in Utah is in San Francisco and meetings are now being held in Oakland and the entire situation as presented by the San Francisco catastrophe is under discussion. The local office of the board the information was given out yesterday that before the San Francisco disaster of pecuniary complete report of conditions in Salt Lake was prepared and was about to be forwarded to the headquarters of the board.

Utah was entitled to a small percentage of decrease in insurance rates for the reason that two new fire engines, new hose and other equipment had been added to the local fire department. Just what influence this report will have with the board should it decide to increase rates within its jurisdiction, of course cannot be predicted. However, there is a chance, it is said, that even should rates be raised in other cities the rates in Salt Lake may be allowed to remain the same, or possibly the increase may be small.

The board is so overwhelmed with work at the time that no information can be received by the Salt Lake office on this subject.
The "Western Union" is the name by which the board of underwriters which has jurisdiction over the middle western states and states as far west as Colorado is known. The headquarters is at Chicago.

WESTERN PACIFIC GOES RIGHT AHEAD

No Obstacles Threaten to De-
lay Work of Building the
Line at Once.

RAILS ARE ON GROUND NOW

GRADE ACROSS RIVER IS COM-
PLETED AND READY.

A trip afoot over the Western Pacific's grade through the western part of the city, across the river and on toward the lake yesterday did not bear out the assertion that trouble was to occur over certain obstacles. In fact, the obstacles were missing. On First South street, near the Jordan river, the Salt Lake route has a short spur, probably not over twenty feet high. This spur crosses the grade of the Western Pacific. From all appearances it has been there for several years. Local representatives of the grade of the Western Pacific, and are being unloaded preparatory to the commencement of track-laying. The grade touches both sides of the river. On the western side the grade is made up of the latter road say these tracks will be crossed by their own and the work done with Lake Route's tracks for a distance of eight miles. About 100 laborers are camped in tents a mile west of the river. The steel will be piled there to be distributed along the line as needed. Track-laying will commence from the river and completed to the Rio Grande's tracks on Fifth West street. This will permit rail and other material being hauled across the river. As fast as the track is laid, trainloads of material will be hurried to the front. This method, it is believed, will be used until Buena Vista is reached. Here immense material yards will be established and made the base of supplies for the line.

Right of Way Cleared.

The right-of-way purchased during the past for the Western Pacific is now clearly defined. Commencing on Fifth West street the grade cuts the block diagonally toward the northwest corner of First South and Sixth West streets. From this point an avenue has been cleared through the middle of the block and carried in a nearly straight line to the river. All houses, barns and other obstacles have been removed from the right-of-way which runs west midway between First South and South Temple streets. The grade is now being laid out in a half-mile west of the river the grade turns to the southwest and parallels the Salt Lake Route's tracks for a distance of eight miles. About 100 laborers are camped in tents a mile west of the river. The steel will be piled there to be distributed along the line as needed. Track-laying will commence from the river and completed to the Rio Grande's tracks on Fifth West street. This will permit rail and other material being hauled across the river. As fast as the track is laid, trainloads of material will be hurried to the front. This method, it is believed, will be used until Buena Vista is reached. Here immense material yards will be established and made the base of supplies for the line.

Surveyors at Work.

Surveyors were at work yesterday drawing out the final preliminary map to actual track-laying. Many of the houses which stood on the company's right-of-way have been hauled away and other portions of the city or reduced to kindling wood. Numerous wagons are still carrying away debris. With the grade in first-class shape it will be a matter of a few weeks only, before material trains are rumbling across the river.

J. L. MOORE LEAVES TONIGHT.

Will Assume Duties as District Agent
at Riverside for Salt Lake Route.

J. L. Moore, formerly district freight agent for the Salt Lake Route in Salt Lake, but who asked to be transferred to Riverside, Cal., recently, will leave for his new territory tonight. Mrs. Moore and son are at Long Beach and will join Mr. Moore and accompany him to Riverside, their future home.

J. H. Burner, who exchanges territories with Mr. Moore, will accompany him to Riverside. Upon his return to Salt Lake to assume his duties in the local office Mr. Burner will be accompanied by his wife and four children.

LAW AGAIN CLUTCHES NOTED MAIL ROBBER

Leavenworth, Kan., May 10.—Alfred Bell, who had just finished his term in the state prison here for robbing the mails, was arrested as he left the prison gate today. Bell is wanted at Philadelphia for robbing a mail pouch and probably will be taken to that city within a few days. Bell also is wanted at Joplin and Kansas, Mo., and other places on charges of mail pouch robberies, but the Pennsylvania charge is the most serious. Bell already served two terms of jail for robbing the mails.

MRS. DUKE APPEALS.

Trenton, N. J., May 10.—Counsel for Mrs. Duke today filed an appeal carrying to the court of errors and appeals the divorce granted to her husband, James B. Duke.

RUNNING SORES COVERED LIMBS

Little Girl's Obstinate Case of
Eczema—Instantaneous Relief
By Cuticura—Little Boy's Hands
and Arms Also Were a Mass
of Torturing Sores—Grateful
Mother Says:

"CUTICURA REMEDIES A HOUSEHOLD STANDBY"

"In reply to your letter I write you my experience, and you are privileged to use it as you see fit. Last year, after having my little girl treated by a very prominent physician for an obstinate case of eczema, I resorted to the Cuticura Remedies, and was so well pleased with the almost instantaneous relief afforded, that we discarded the physician's prescription and relied entirely on the Cuticura Soap, Cuticura Ointment, and Cuticura Pills. When we commenced with the Cuticura Remedies her feet and limbs were covered with running sores. In about six weeks we had her completely well, and there has been no recurrence of the trouble."

"In July of this year a little boy in our family poisoned his hands and arms with poison oak, and in twenty-four hours his hands and arms were a mass of torturing sores. We used only the Cuticura Remedies, washing his hands and arms with the Cuticura Soap, and anointed them with the Cuticura Ointment, and then gave him the Cuticura Resolvent. In about three weeks his hands and arms healed up, so we have lots of cause for feeling grateful for the Cuticura Remedies. We find that the Cuticura Remedies are a valuable household standby. Living as we do twelve miles from a doctor, and where it costs from twenty to twenty-five dollars to come up on the mountain. Respectfully, Mrs. Lizzie Vincent, Thompson, Tenn., Oct. 13, 1905."

Complete External and Internal Treatment for Every Humour, from Pimples to Scrofula, from Infancy to Age, consisting of Cuticura Soap, 25c; Ointment, 25c; and Pills, 50c. (In form of Chocolate Coated Pills, 25c per vial of 60, may be had or sent direct, please enclose for the most distressing cases when all else fails. Potter Drug & Chemical Corp., Buffalo, N. Y., U. S. A. Mailed Free. "How to Cure Torturing, Disfiguring Humours," and "The Great Skin Book."

METEOROLOGICAL REPORT.

Yesterday's Record at the Local Office of the Weather Bureau.

Maximum temperature, 82 degrees; minimum temperature, 53 degrees; mean temperature, 68 degrees, which is 11 degrees above the normal; accumulated excess of temperature since the first of the month, 36 degrees; accumulated excess of temperature since Jan. 1, 28 degrees. Total precipitation from 6 p. m. to 6 p. m. none; accumulated deficiency of precipitation since the first of the month, .31 inch; accumulated excess of precipitation since Jan. 1, 1.80 inches.

FATAL BOILER EXPLOSION.

Muscantine, Ia., May 10.—A boiler at Brown Brothers' tile factors, Crawfordville, exploded today. Two men were killed and the plant was wrecked.

EVILS RESULTING FROM CONSTIPATION

How This Trouble May Be Readily
Corrected.

You are drowsy, heavy, lorgy, lack energy, your attention is an effort—your head is not clear and it is hard to think, you have a full and oppressed feeling in your stomach and bowels—all your limbs and body ache—in fact, life seems hardly worth living under such conditions. Ask yourself, "Do your bowels move regularly?" If you feel as above your answer will be "NO"—that is the cause of your troubles. If not properly corrected this condition will lead to much more serious disorders of the blood and body due to the poisons the waste matter which should be promptly carried off. And it seems so foolish to suffer when Nature has provided her own wholesome and certain remedy in the pure Mineral Laxative Water—HUNYADI JANCOS—from the famous Springs in Hungary. Half a tumbler of this wonderful water drunk on arising in the morning lightly warmed for best results will give you within an hour a delightfully pleasant and copious movement. This will clear your head, sharpen your appetite and make a new man of you. Try it and see. At all Druggists.
